

University Research Master's Degree in Social and Legal Sciences (Economics, Labour and Entrepreneurship) was launched during 2009-2010 academic year. It provides the students with the basic skills to do high value researches and it's the prior step to write the doctoral Thesis, providing access to the UEx PhD programs.

This Master's Degree has been designed for graduates with a first university degree, or any equivalent officially-recognized qualification, always in the same branch of knowledge. Preference will be given to those in possession of any of the following qualifications (that will give direct access):

- Degree in Administration and Business Management.
- Degree in Economics.
- Degree in Labour Sciences.
- Degree in Law.
- Degree in Market Research and Techniques.
- Degree in Financial and Actuarial Sciences.
- Degree in Tourism.
- Degree in Business.
- Degree in Labour Relations.

The compulsory 60 credits needed to complete this Master's Degree are allocated in the following way.
